Affiliation:

Email Address:

SECONDER INFORMATION:

Name:

Affiliation:

Email Address:

Has the nomination been discussed with the nominee? Yes ____ No ____

SUGGESTED CITATION (25 words or less):

* To be eligible for any of the PHYS Division awards the nominee must be a member of the Physical Division of the ACS and, in the case of the established-scientist awards, may not have received a national award from a professional society based on his or her scientific accomplishments. Members of the National Academy of Science are also ineligible for these awards. At the time of the nomination, current serving members of the PHYS Division Executive Committee in any capacity, including subdivisions and councilors as well as individuals who are up for election to these positions, are ineligible for nomination for this award until after their term of service. For the early-career awards, the nominee must be in the first ten years of his/her independent scientific career. Any nominees that has served on the PHYS Exec Committee are eligible for the first twelve (12) years of the careers as independent researchers. Previous awardees of the JPC/PHYS Lectureships are not eligible.

Please attach the nominee's current curriculum vitae and publication list, as well as the two letters of support (the nominating letter and one seconding letter).
